In-House Insights

Need an Inspired Chemistry Team to Work on your Business?

Drug Discovery is an art of understanding creation and enhancing it with the human intellect. A work of deep science, driven by a thirst for knowledge.

Our inspired, passionate, motivated and experienced team of Medicinal / Organic chemists have been consistently delivering the candidates across a wide range of therapeutic areas and target classes. This innovative scientific team is complemented by state-of-the-art infrastructure, technology and supporting tools like informatics, in-silico designing, protein modelling and a variety of screening technologies.

To top it up, we are now applying AI and machine learning to augment the existing methodologies. All this to speed up the ultimate delivery – safe and efficacious drug molecules.
